# GENERAL CONTRACTING

## AND MAINTENANCE

- ❖ CONCRETE WORK
- ❖ MAINTENANCE CONTRACTS FOR BUILDINGS

# FLOORING

- ❖ STAMP CONCRETE AND EXPOSED AGGREGATE
- ❖ MICRO TOPPING
- ❖ PAVING
- ❖ EPOXY COATING

## STAMP CONCRETE AND EXPOSED AGGREGATE

Stamped concrete is a type of decorative concrete that is designed to resemble other materials, such as brick, flagstone, slate, tile, or wood. It is achieved by pressing rubber stamps molded from the desired texture into freshly poured concrete while it is still in its plastic state. This creates a pattern or texture on the surface of the concrete that mimics the appearance of the desired material. Stamped concrete is a popular option for outdoor patios, walkways, and driveways, as well as indoor flooring and walls. It is a cost-effective alternative to using actual stone or brick, while still providing the same visual appeal.

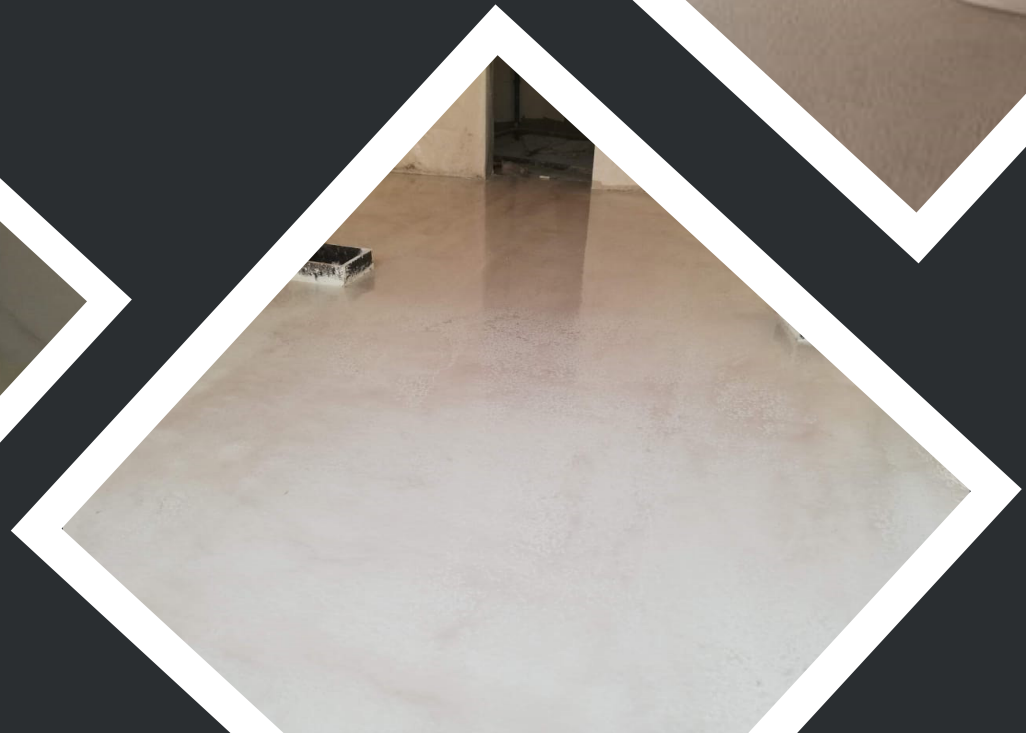

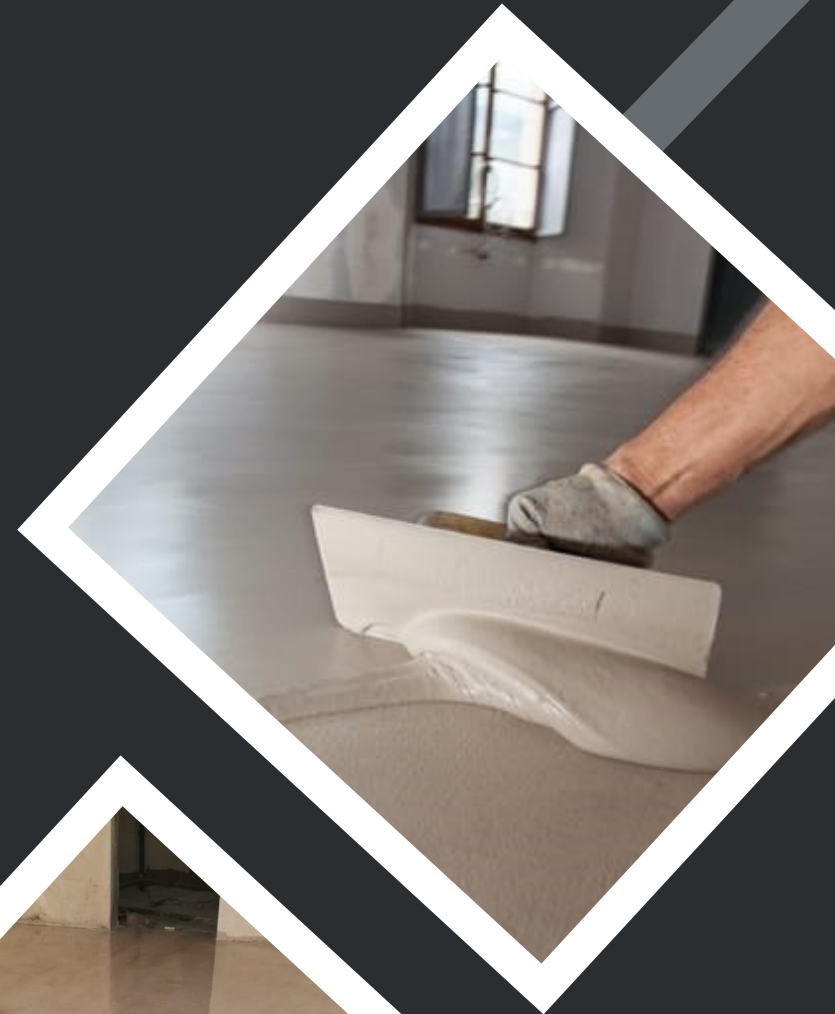

## MICRO TOPPING

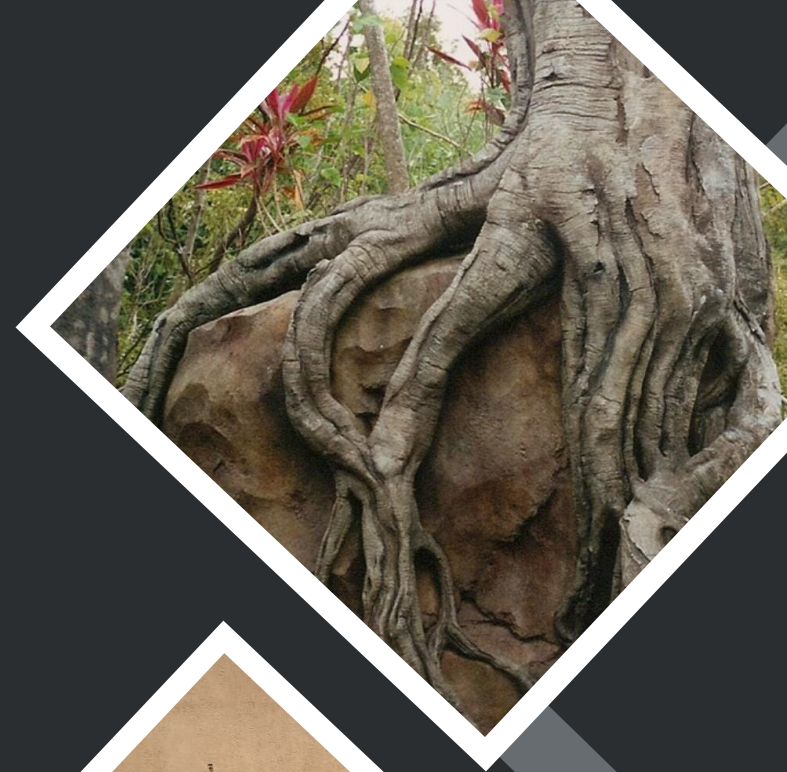

Micro topping concrete, also known as micro cement or skim coat, is a thin overlay system that is applied to existing concrete surfaces to enhance their appearance and durability. It is a popular choice for both residential and commercial applications where a seamless, smooth, and aesthetically pleasing surface is desired.

# THEMING WORK

- ARTIFICIAL ROCK
- ARTIFICIAL TREES
- SCULPTURE
- THEMING PAINT
- THEMING PLASTER

Theming work is the art of transforming spaces, events, and projects into immersive and captivating experiences through the skillful integration of visual, sensory, and conceptual elements. It is a multidisciplinary endeavor that combines storytelling, design, and craftsmanship to create coherent and engaging environments that leave a lasting impact on individuals.

## ARTIFICIAL ROCK

Artificial rock refers to a man-made material designed to replicate the appearance and texture of natural rocks. It is crafted using various techniques and materials to mimic the characteristics of different rock formations. Artificial rocks find applications in landscaping, construction, entertainment, and artistic endeavors, providing flexibility, customization options, and lightweight alternatives to natural stones.

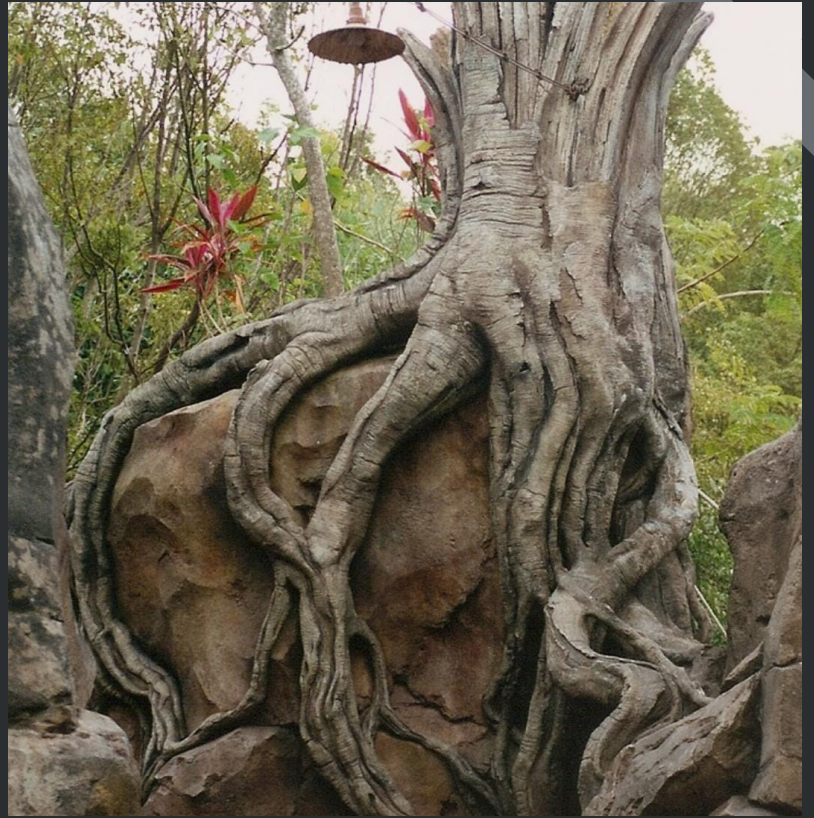

## ARTIFICIAL TREES

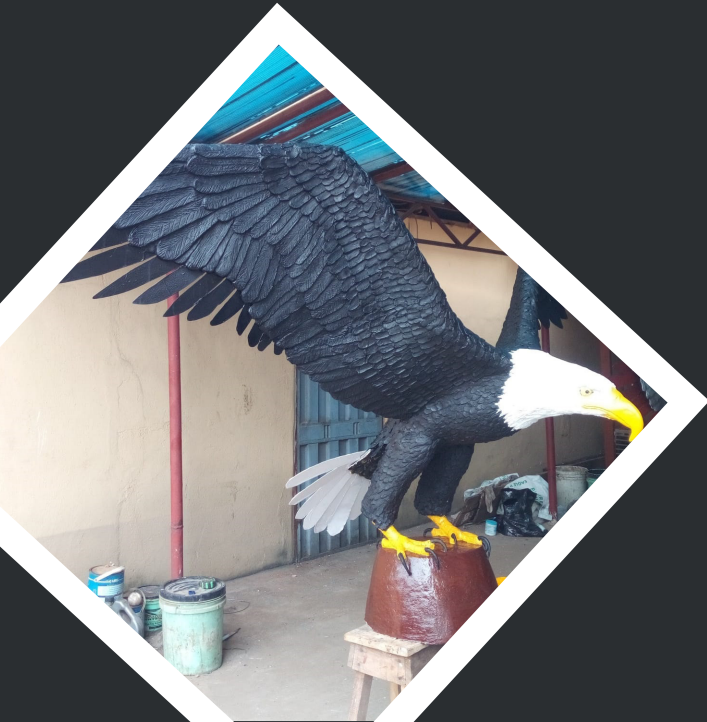

## SCULPTURE

Sculpture is a form of three-dimensional art that involves creating physical objects or forms using various materials and techniques. Sculptures can be representational or abstract, and they can range from small-scale works to large installations. Sculpture allows artists to explore creativity in a tactile and spatial manner, inviting viewers to engage and interact with the artwork.

## THEMING PAINT

Themed paint refers to a type of paint that is specifically designed and formulated to align with a particular theme or aesthetic concept. It goes beyond standard paint colors and incorporates unique textures, finishes, or effects to create a specific atmosphere or visual impact.

## THEMING PLASTER

Themed plaster, also known as decorative plaster or textured plaster, refers to a specialized type of plaster that is used to create unique and visually interesting wall or ceiling finishes. It involves applying plaster in specific patterns, textures, or designs to achieve a desired thematic or decorative effect.

# SWIMMING POOLS

Swimming pools epitomize luxury, elegance, and tranquility. They enhance the villa's beauty, provide a private oasis for relaxation and recreation, and become an integral part of the overall ambiance. With meticulous design, attention to detail, and a focus on privacy and comfort, these pools transform villas into havens of refined living, offering residents a truly exceptional lifestyle experience.
